com

**ELIMINATE ALL YOUR GLASS  
BOTTLE RECYCLING COSTS**

Our Glass Bottle Crusher reduces bottles to sand instantly, thereby eliminating your glass bottle recycling costs. As the plan going forward is for all bottles to become non returnable , now is the time to get a solution to the expense of glass bottle pick up charges.

Quick and easy to operate, it will also

- eliminate your glass recycling costs
- guarantee huge reductions in your waste management costs.
- significantly reduce your glass bottle storage requirements.
- reduce labour costs

Our machine is ideally suited for premises that have a small yard or storage area as it is only 22 inches square, 4ft 6 inches high and on wheels, making it highly mobile and works on single phase electricity.

- Volume reduction up to 90% .
- 120 beer bottles or 60 standard wine bottles reduced to half a bucket of sand
- 75% silica sand, safe to handle and used in horse riding arenas/gallops ,golf fairways , flower and shrub beds , pathways and sandblasting.

## TESTIMONIALS

"The Glass Crusher since purchase has made a huge difference here at Waterford Castle and Golf Resort. It is easy to use, safe and efficient. In a short space of time we have seen a reduction in our glass bottle storage requirements, glass recycling and labour costs. We have already seen significant savings in our overall recycling costs. Being located on our own private Island we are very conscious of our impact on the environment around us. We would have no hesitation in recommending this product to any business".

**Helen Courtney Resort General Manager, Waterford Castle Hotel & Golf Resort**

As more and more bottles become non returnable we have made huge savings by eliminating all our glass pick up charges. I thoroughly recommend the Glass 2 Sand glass bottle crusher .

**Paul Horan, Raglan Pub/Esquire Rest., Tramore, Co. Waterford**

We operate a very busy night club and bar in Kinsale and have had an excellent experience with the Glass2Sand glass bottle crusher . It has brought huge savings in many areas - monetary , labour and storage requirements .

**Conor Ryan , Baachus/Folkhouse, Kinsale**
